

## Letter of Appreciation

26/01/18

To whom it may concern,

I am immensely grateful for the financial support I have received and as such, will go into detail as to how this will benefit me...

I'm Ibrar! An ambitious 22-year old ready to take life by the horns! This ambition has stemmed from the financial hardships I have faced in my life; from not being <sup>able</sup> to afford school meals to paying for a bus fare ticket. Despite these difficulties, I have always shown scholastic ability that has now got me into a world-top 23<sup>rd</sup> university; namely King's College London.

At my college last year, I scored a perfect-45 distinction score in my Access to Social Sciences Diploma, alongside scoring the highest marks in my maths GCSE - which I retook to improve my previous grade. Both these feats were achieved through my sheer determination to do well for myself in this hectic game we call 'Life'. These were my highlights of last year - and have made me the person who I am today.

Developing as a person takes persistence as well as financial assistance. If either one of these elements is missing, life often seems bleak. However, having had the opportunity of both, I feel the funding will help to nurture me as a person - and ultimately, provide back to the community via the jobs I find.

Lastly, I hope to make the most of all the opportunities that studying in London provides for me; from the networking to the extensive libraries - and endeavour to achieve at the highest level this year.

Yours sincerely,

Ibrar Hussain
